PDF Download The Big Book Of Dashboards Free

The Big Book of Dashboards presents a comprehensive reference for those tasked with building or overseeing the development of business dashboards. Watch as Jeffrey Shaffer, Steve Wexler, Amand Makulec, and Andy Cotgreave debate the good, the bad, and the [screaming cats] of data visualization. One of the biggest lessons these industry leaders have leared is the importance of collaboration, iteration, and friction.

The Big Book of Dashboards on Amazon Comprising dozens of examples that address different industries and departments (healthcare, transportation, finance, human resources, marketing, customer service, sports, etc.) and different platforms (print, desktop, tablet, smartphone, and conference room display) The Big Book of Dashboards is the only book that matches great dashboards with real-world business scenarios.

Books by Steve | Data Revelations

The bulk of the book (pages 38-337) are examples of different types of dashboards. And while there is a huge amount of data here, I think I realised at this point that, because I expect dashboards to be interactive, a print format is probably not the best (at least, not for me).
