Technical Datasheet - Toray Films Europe
3900 Data Sheet . 3960 Prepreg System.
Toray's next-generation #3960 prepreg system demonstrates the next leap in performance of aerospace materials. Complementary pairing of the #3960 resin system with state-of-the art T1100G carbon fiber provides the unparalleled properties expected of materials for the future.

Toray Composite Materials America, Inc.
Standard modulus carbon fibers typically exhibit a fiber modulus of 33-34 Msi or slightly higher. These are the most cost-effective fibers as measured by tensile strength or modulus per unit cost. Toray's T300 standard modulus carbon fibers are a recognized industry standard, having been in production since 1971.
